REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 C.F.R. 1.322

This is a request for the issuance of a Certificate of Correction under 37 C.F.R. 1.322 in the above-referenced patent to correct Office mistakes. Two (2) copies of form PTO-1050 are enclosed.

The requested corrections are (1) the inclusion of information on the title page regarding the claim of priority to U.S. Provisional Patent Application No. 60/176,020, filed January 14, 2000; (2) correction of typographical mistakes in claims 1 and 62; and (3) replacement of FIG. 11 with the corrected FIG. 11, both in the specification and on the title page. The errors were made by the Office and correction under 37 C.F.R. 1.322 is requested.

Attached hereto is the Declaration executed by all inventors, which includes the claim for priority to the Provisional Application No. 60/176,020, filed January 14, 2000. Also attached are the Official Filing Receipts that indicate the priority claimed to the provisional application.

Also attached is the Examiner's Amendment, which issued on June 15, 2006, in which amendments were made to claims 1, 14, 45, and 65. Claim 1 remained as claim 1 in the issued patent, claim 14 became claim 34 in the issued patent, from which claim 45 (claim 62 in the issued patent) depends. Claim 1 and claim 45 were correctly amended by the Examiner; however, the issued patent now contains typographical errors in claims 1 and 62, as shown corrected in the attached form PTO-1050.

Additionally, attached is the Submission of Replacement Drawings, filed on March 29, 2006, in which the Applicants submitted corrected FIG. 11. FIG. 11 in the issued patent is not the corrected version.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
